LALIZAS

HISTORY

LALIZAS was founded in Piraeus, Greece,
in **1982** by Mr. Stavros Lalizas
as a **small manufacturing plant** of buoyancy aids
for professional sailing.

Today, LALIZAS remains a **family-owned company**, whose vision is to produce high-quality products that ensure safety at sea, and distribute them to international markets through its well-established network of branches, franchises & distributors.

Our product range includes both ISO & SOLAS lifejackets, foam-filled and inflatable ones, as well as liferafts, MOB devices and navigation lights, immersion suits, safety harnesses, IMO signs and many other safety marine products; these are designed by taking into account the regulations of different flags.

All items are being **manufactured** and **distributed** to maritime companies, ship suppliers, chandleries, marine stores, shipyards and boat builders around the world always taking into consideration the market's needs and feedback, as well as the latest updates on regulations.

The genuine care for our customers and the indispensable input of our employees, who are considered as **#thelalizasforce**, have resulted in the company's growth and will continue to contribute positively to the continuous development of LALIZAS.

Stavros Lalizas
CEO

Milestones of the past

1982

Mr. **Stavros Lalizas**, former National Sailing Champion, **founds** LALIZAS in his house by responding to the demands of the sailing market and starts selling custom made lifejackets throughout the region of Greece.

The sewing machine of his mother who made the 1st LALIZAS lifejackets

1986

We set our first exporting activities and established a commercial presence to Australia & to the Netherlands, where participated in the International Expo for the first time.

1995

Larger factory premises & commercial expansion to 45 countries.

2000

A sudden fire at LALIZAS HQs destroyed everything. The outcome was a total loss which almost put the company out of business.

2001

90 days after the fire, we were back in business with new and modern premises.

2008

New logistics hub in China.

2011

New logistics hub in Belgium.

2012

Acquisitions of

Nuova Rade
Marine - Plastics Technology Experts

2015

New production line in Pernik, Bulgaria.

2018

Acquisitions of

2019

Acquisition of

COMMERCIAL

The commercial shipping industry faces new challenges every day. The vessels must constantly comply with new regulations and standards, the inspection control in the ports is stricter and the fear of the ship being detained is more present than ever before.

**LALIZAS offers what ship owners & ship managing companies need:
a total safety solution that ensures the vessel's compliance.**

CARGO VESSELS

PASSENGER VESSELS

OFFSHORE PLATFORMS

DEFENCE

YACHTING

Whether it is sailing or any other kind of watersport, all these activities require preparation and extra caution by following the safety rules, in order to comply with specific regulations which are set to ensure safety on deck.

LALIZAS offers complete safety package solutions that boat owners, yachting and watersport enthusiasts need, aiming to make them feel safe on board.

Throw-overboard

LALIZAS Liferaft SOLAS DEEP SEA II, Throw-overboard Type

LALIZAS Liferaft SOLAS DEEP SEA II, Throw-overboard complies with MED 2014/90/EU – Chapter III SOLAS 1974 and subsequent amendments. Available in Pack A and Pack B equipment from 6 to 25 person versions. Can be packed either in a roll or in a flat pack canister. The compact version is the most compact SOLAS liferaft, designed specifically for the mega yacht market in order to save valuable stowage space.

A compact container is available in both cylindrical and rectangular shape with Pack A and Pack B equipment from 6 to 12 person versions. The number of stabilizing pockets guarantees safety and comfort even in a stormy sea. A fiberglass container is included either in a roll or in a flat pack canister version. LALIZAS Liferaft SOLAS DEEP SEA II, Throw-overboard is designed to inflate in an environment temperature of -30°C to +65°C while its inspection interval is every year.

Made in Italy

Yachting

LALIZAS ISO ATLANTIC C Liferaft >24h

LALIZAS ISO ATLANTIC C Liferaft >24h is designed for survival for more than 24 hours. Ideal for offshore sailing with complete survival equipment. Certified according to ISO 9650-1 A testing standard. ISO 9650-1 defines liferafts designed for long voyages or cruises when gusts of wind can be expected, together with exceptional wave height (excluding abnormal conditions such as hurricanes). Each liferaft contains thermal floor, internal & external light, pop-up tent and 4 stabilising pockets.

Available in 4 to 12 person versions, packed either in a canister or in a waterproof valise. Designed to inflate in an outdoor temperature of -15°C to +65°C. The inspection interval depends on the flag. Please also be advised by your local LALIZAS Service Station.

With fully transferable 12-year warranty on fabric and seams (starting from the day of manufacture). The warranty is valid if the product has been properly stored & has undergone all its services by a LALIZAS authorised Service Station, in the proper service intervals, required by the flag administration & the manufacturer.

LALIZAS ISO ATLANTIC PG Liferaft >24H, Grab Bag

LALIZAS ISO ATLANTIC PG Liferaft >24, GRAB BAG is supplied with an approved grab bag to reduce weight and dimensions, designed for survival more than 24 hours. Certified according to ISO 9650-1 A testing standard. ISO 9650-1 defines liferafts designed for long voyages or cruises when gusts of wind can be expected, together with exceptional wave height (excluding abnormal conditions such as hurricanes).

It is available in 4 to 12 person versions, packed either in a canister or in a waterproof valise. Each liferaft contains thermal floor, internal and external light, pop-up tent and 4 stabilizing pockets. Designed to inflate in an outdoor temperature of -15°C to +65°C. Regarding the inspection interval, please be advised by your local LALIZAS Service Station.

With fully transferable 12-year warranty on fabric and seams (starting from the day of manufacture). The warranty is valid if the product has been properly stored & has undergone all its services by a LALIZAS authorised Service Station, in the proper service intervals, required by the flag administration & the manufacturer.

LALIZAS ISO-RAFT International Liferaft

LALIZAS ISO-RAFT can be used on recreational boats and is certified according to ISO 9650-1 testing standard for Safety and offers highly visible, stable and sheltered conditions for the occupants. This testing standard has been adopted by the most European Countries. This liferaft is available in 4 to 12 person versions, fitted with a single floor as standard and designed to be extremely safe. The ISO-RAFT combines compact size and structural integrity with proven liferaft design. It is automatically inflated by a 12-meter painter line and its inflation system provides enough gas to inflate all the buoyancy chambers. The main body of the life raft consists of two buoyant chambers inflated through a non return valve ensuring the flotation of the liferaft.

Each chamber is capable of fully supporting the raft with its maximum number of occupants. It can be packed either in a canister or in a waterproof valise. It is initially certified by Polish Register of Shipping-1463 and furthermore approved by the Maritime Authority of the Country of Destination in case it is needed.

With fully transferable 12-year warranty on fabric and seams (starting from the day of manufacture). The warranty is valid if the product has been properly stored & has undergone all its services by a LALIZAS authorised Service Station, in the proper service intervals, required by the flag administration & the manufacturer.

LALIZAS ISO RACING Liferaft, <24h

LALIZAS ISO RACING high-quality standard liferaft is ultra-light, having a compact size which provides easy storage. Due to the lightweight material, it is ideal for racing sailboats that need to save space and weight. Its manufacturing technology and materials are inspired by the aviation industry to ensure maximum performance. Available in sizes for 4 - 12 persons, packed either in a canister or in a waterproof valise.

It is automatically inflated by a 12-metre painter line and its inflation system provides enough gas to inflate all the buoyancy chambers. Each chamber is capable of fully supporting the raft with its maximum number of occupants. LALIZAS ISO RACING is manufactured and certified according to ISO 9650-1 standards for Safety and offers highly visible, stable and sheltered conditions for the occupants.

With fully transferable 12-year warranty on fabric and seams (starting from the day of manufacture). The warranty is valid if the product has been properly stored & has undergone all its services by a LALIZAS authorised Service Station, in the proper service intervals, required by the flag administration & the manufacturer.

LALIZAS EUROPE II INSHORE Lifteraft

LALIZAS EUROPE II INSHORE Lifteraft can be used on recreational boats. Certified according to ISO 9650-2 testing standard. ISO 9650-2 defines liferafts designed for sailing in areas where moderate conditions are expected, such as coastal waters, bays, estuaries, rivers and lakes.

Available in 4 to 8 person versions, packed either in a canister or in a waterproof valise. Designed to inflate in an outdoor temperature of 0°C to +65°C. The inspection interval depends on the flag. Please also be advised by your local LALIZAS Service Station.

LALIZAS LEISURE-RAFT Lifteraft

Ideal for in-shore boating, the LALIZAS high quality standard Leisure-Raft is perfect for those that don't need a full feature liferaft. It is the smallest, lightest and most inexpensive liferaft in the market. The LALIZAS Leisure-Raft with its light weight allows for easy deployment, and the compact size makes storage easy in the smallest spaces.

LEISURE-RAFT

Valise

- TPED approved CO₂ cylinder for easy transport.
- Thermobonding technique that ensures extreme durability and reliability.
- SOLAS Approved water activated compact led light.

Standard Equipment

- 20 ft. (6m) Painter line
- Hand pump - Sea anchor (1 piece)
- Raft knife (1 piece)
- Pressure relief valve (1 piece)
- CO₂ Inflation system
- Water-activated locator light
- Ballast bags (2 pieces)
- Case (1 piece)

*3-year recommended service interval

LifeLink Evacuation Liferaft, Grey

Mounting on the rails

LifeLink

Made in EU

The LifeLink Evacuation Liferaft is one of the most manageable and user-friendly appliances in case of emergency. It is designed for the LALIZAS Leisure Liferaft (4 persons) and guarantees rapid deployment in an M.O.B. situation. By mounting the LifeLink Evacuation Liferaft on the rails, the user manages to save valuable stowage space on board.

Features

- Material HDPE with UV protection
- All metal components of stainless steel
- Created via rotomolding

Distance between horizontal rails: 310 mm ± 20 mm

**3-year recommended service interval*

Code | 73668

Liferaft Equipment

LALIZAS Hydrostatic Release Unit for Liferrafts, SOLAS/MED/USCG-MER/TC

Made in Greece

LALIZAS HRU mechanism is the outcome of a long-term experience in liferafts' manufacturing, designed and produced in the EU (in Greece), in accordance with SOLAS/MED/USCG regulations. It can easily be installed on board, attached to the liferaft according to instructions. The mechanism is being automatically activated, in the event of sinking, in a depth of between 1,5 and 4m, allowing the liferaft to be inflated and detached from the sinking vessel. It can be installed to all life rafts of 4-150 persons.

- No maintenance required
- Requires replacement 2 years after installation on board or 4 years after manufacture (whichever occurs first)
- Tested & approved by Force Certification A/S
- SOLAS/MED/USCG-MER/TC approved

Code | 73595

LALIZAS Lashing with Hook

Suitable for:

- All Hydrostatic Release Units
- LALIZAS OCEANO Liferaft (all types)

Liferafts

Liferaft Equipment

LALIZAS LRL External & Internal Liferaft Light, SOLAS/MED/USCG

LALIZAS External & Internal Liferaft Light is included in the basic equipment of the liferaft, having a compact size and structure. Its features make the installation to the liferaft easy and safe while it is fully sealed and watertight. The external flashing light is designed to produce a minimum of 4.3 cd and the internal steady light a minimum of 0.5 cd. LALIZAS External & Internal Liferaft Light has a minimum duration of 12 hours and both lamps can be controlled individually. It has lithium battery and LED light and the storage lifetime is 5 years. LALIZAS LRL comes with 70 cm lead length, but this can be varied, subject to the liferaft size and specs. Storage & operating temperature: -30° C to +65° C. SOLAS/MED/USCG approved.

LALIZAS Thermal Protective Aid Alusafe-T, LSA Code

- Meets the LSA code requirements
- Protects the wearer from hypothermia, which may be caused by prolonged exposure in liferafts and rescue boats
- Offers survivor's protection from wind and cold
- Made of aluminium film coated fabric
- The low thermal conductivity of aluminium reduces both the convective and evaporative heat loss from the wearer's body and preserves stable temperature
- Covers the fully clad body, wearing even a lifejacket
- Available in one size, in silver colour

Height range: 1,45 - 2,00 m

Thermal Blanket, Advanced, 2,1 x 1,6m

With aluminium & titanium coating

Application: The thermal blanket helps you keep the body's temperature by protecting you from the sunrays and the very low temperatures. It is suitable for use in cases of accident, but also for protection against wind, rain or heat.

Instructions: When you need to avoid hypothermia, use the thermal blanket with the golden side facing upwards. In case you need protection from the heat, use the thermal blanket with the silver side facing upwards.

Inflatable Lifejacket Accessories

Sea Dye Marker

- Lifesaving device used for sea rescue, usually requested by Army/Navy
- Contains a fluorescent green dye that spreads over the surface of the water so as to increase visibility for a rescue pilot to see
- Can be easily placed in a life vest pocket or life raft safety kits or else
- The bright green pattern on the water can be seen for about a mile or 2km and lasts vividly for about 60 minutes
- To use, just tear in the area indicating the marking on the PVC bag

Main materials

- PVC bag
- Fluorescent dye, Uranine U, 90gr

Code | 70464

LALIZAS Inflatable Lifejacket Protective Work Cover

Front

Back

Code | 71211

- Provides shielding against heat, sparks, flame, soft chemicals
- Easy fit / Simple-to-use design
- Lightweight fabric
- Does not affect the operation, behaviour & water performance of the protected lifejacket

Suitable for:

Sigma Lifejackets:

71096, 71097, 72154, 72560, 72561, 72081 & 720811

Zeta Lifejackets:

72399 & 72400

Lamda Lifejackets:

71107, 71216, 72114 & 72115

1

Turn the protective work cover, so that you face its back side

2

Open the cover around its Velcro tape and unfold it side

3

While unfolded, make sure the square belt edges lie towards the center

4

Turn the inflatable lifejacket, so that you face its back side

5

Place the lifejacket on the open protective cover

6

Pass the unfolded cover side through the lifejacket's center

7

Open the square left belt edge of the cover

8

Place it under the center of the belt

9

Then pass it around the lifejacket's left belt holder (under the belt)

10

Open the Velcro tape on the top and place the strap

11

Close the cover's belt edge & secure the lifejacket's belt holder

12

Repeat the procedure with the right square belt edge of the cover

13

Close & secure with the Velcro tape

14

Close the cover around the lifejacket, using the cover's peripheral velcro tape

15

Front

Back

Once the protective work cover is properly adjusted, the lifejacket is ready for use

Maintenance of Inflatable Lifejackets

Maintenance-Storage Instructions: Store the lifejacket in a dry place away from direct sunlight. Don't expose the lifejacket to excessive heat. Do not use as a cushion. Check if the CO₂ cylinder is perforated or damaged. In this case you should replace it. Check the state of the lifejacket (inflatable chamber, buckles, whistles, webbings and harnesses). In case of a severe drop or signs of deterioration contact your local approved service station. LALIZAS spare parts need to be replaced after each use, or 3 years after the manufacturing date. Always check the manufacturing date. **Servicing Instructions:** Your lifejacket shall be serviced at least every year (and more frequently in case of intensive use). **Lifetime of the lifejacket:** 10 years of the manufacturing date.

SOLAS Foam Lifejackets

LALIZAS Foam Folding Lifejacket Compact, SOLAS/MED-MER

The series of Compact Folding Lifejackets SOLAS fully complies with the new regulations [IMO Resolutions (MSC.201(81), MSC.216(82), L.S.A. Code as amended by 207(81), 218(82); and MSC 81(70), MSC.200(80), MSC. 226(82), MSC. 323(89), MSC. 368(93) & MSC. 378(93)], which are mandatory for all lifejackets used on board EU flagged vessels.

Driven by regulation changes for lifejacket accessibility on cruise ships, and customer demand for reduced bulk and improved storage options, LALIZAS has designed the Compact lifejacket to best service these needs.

Lifejacket Lights

LALIZAS Lifejacket LED Flashing Light “Alkalite II” ON-OFF Water-activated, SOLAS/MED/USCG

Original Size

Code | 72348

- Water-activated LED flashlight technology
- Extra powerful LED light: Offers lower consumption, longer life and operates automatically when it comes in contact with water
- ON-OFF button operation: To turn it ON-OFF when out of water
- Durable plastic body: 100% Waterproof via ultrasound welding & epoxy resin for extra safety
- Universal size clamp: Fits & locks easily in two moves with every 20 - 50 mm lifejacket belt, providing security & stability against sudden moves of panic
- Easy-to-read marking for instant inspection
- Alkaline battery: Ensures 5 year lifetime and more than 8 hours of continuous operation. Smoother and easier waste batteries management

Lifebuoy Lights

LALIZAS Lifebuoy Light SOLAS/MED/USCG - ATEX/IECEX

LALIZAS Lifebuoy Light uses flashing light with LED technology and is designed to withstand the toughest rigours of the commercial and offshore sectors. It is completely watertight with a compact structure and designed to be tamper proof, corrosion resistant and to deliver, as a minimum standard, an omnidirectional over 2cd output for at least 2 hours. It is specifically designed to be highly resistant to accidental damage on board. Meeting full SOLAS and EC MED approvals, it is also approved to both ATEX and IECEX standards making it the only choice for hazardous installations such as offshore oil rigs, gas and oil tankers (for use in hazardous zones 0,1 and 2).

Code | 71326

Specifications

- SOLAS/MED/USCG approved
- ATEX & IECEX Intrinsically Safe Approvals
- Intrinsically safe, for use in all potentially explosive zones
- Five-year lifetime
- No maintenance or replacement batteries are required
- Supplied complete with bracket & 1 m lifebuoy lanyard
- Compact size
- Mounting bracket with easy fitting in all locations
- Advanced LED technology for low consumption and enhanced reliability
- Also tested according UL913, Standard for Safety, Intrinsically Safe Apparatus and Associated Apparatus for use in Class I, II, III, Division 1, Hazardous (Classified) Locations.

CE1026

LALIZAS Lifebuoy Light SOLAS/MED/USCG

LALIZAS Lifebuoy Light uses flashing light with LED technology and is designed to withstand the toughest rigours of the commercial and offshore sectors. Horseshoe Lifebuoys

Horseshoe Lifebuoy "Basic I", 140N

- Offers personal floatation to seafarers in case of man overboard emergency
- Essential equipment for all boats, both yachts and motorboats
- Made of polyethylene foam in reinforced PVC case with flexible zipper and plastic fastening clip
- Simple to use
- Three different colours: white, yellow and orange

Code	20530	20540	20550
Colour	Orange	White	Yellow

Horseshoe Lifebuoy "Quick RD", 142N

- Made of polyester with PVC backing
- Waterproof, its fabric doesn't fade
- Highly resistant to UV radiation
- Features a flexible zipper cover and plastic hook fastening

Code	70162	70164	70165
Colour	Yellow	Orange	White

For storing this lifebuoy:

You can use the Horseshoe Bracket (20580), where the Lifebuoy Light M.O.B. (70030) can be also mounted, while the "Quick Fit" Horseshoe Cases (70018 & 70019) are ideal for its storage.

Code | 72078

Horseshoe Lifebuoy Case with "Quick RD" Orange (70164), Lifebuoy Light (71325) & 30 m Rope, Grey

The set includes:

- 1 Horseshoe Lifebuoy "Quick RD" (code 70164)
- 1 Lifebuoy Light (code 71325)
- 30 m floating rope, Ø 8 mm, orange
- 1 horseshoe case made of durable PVC (code 72330)
- Can be mounted on handrails

*Lifebuoy Light 70030 (not included) can also fit into the case

Horseshoe Case for "Quick RD", Grey

DELFINO

DELFINO Life float Foam filled with Retroreflective Tape

- It provides efficient buoyancy in case of shipwreck or Man Overboard, allowing the casualties to gather for easier survival and rescue
- Made of indestructible plastic material
- High density polyethylene, filled with polyurethane foam for buoyancy
- Fitted with retroreflective tape for added visibility
- Braided rope is reeved through reinforced eyelets at regular intervals (2, 3 or 4 eyelets on each side) to account for a larger number of persons grasping the rope
- Approved by the Italian Merchant Marine

Code	Persons	Length (mm)	Width (mm)	Height (mm)	Weight (kg)

Approved by the Italian Merchant Marine Made in Italy

Rescue Systems

LifeLink Throwing Line, with 23m Rope

- Ideal for sailing, boating, canoeing, rafting and getting a line ashore
- Can be used either in hand or attached onto the rail for MOB retrieval
- Comes in a high visibility yellow bag with 23 m of floating line
- The smallest of the LifeLink MOB appliances offers maximum flexibility for storage
- Quick and easy to deploy

- Featuring a hand loop on top & an attachment loop at ends, it enables both the rescuer and casualty to be connected
- User instructions are printed on the reverse side of the bag
- The deployment loop has a PVC cover which aids grip and allows easy and quick rescue if required
- Can be used as a standard throwing sock or attached to the rail deployed and towed behind the vessel whilst circling the casualty

***Attention, the product is provided without the stainless steel bracket.**

LifeLink Rescue Sling

- Used for MOB retrieval
- Designed to be permanently mounted onto the pushpit in its own soft, easy-to-clean PVC bag
- The kit contains 36 m of floating line attached to a sturdy buoyant PVC life-sling and a personal retaining clip for added safety
- Deployment is achieved by removing the LifeLink, attaching the floating line to a secure point and throwing it towards the man overboard

- Once in the water, the boat should circle the casualty allowing the LifeLink to be towed to their aid
- Rescue is completed when the casualty is safely clipped into the LifeLink winched to the boat and hauled on board
- Available in white and yellow colour

Contents:

- Rail mounted PVC stowage bag
- 36m floating line
- LifeLink with webbing strap

Features:

- Breaking strain of line > 200 kg
- Breaking strain of flotation belt > 700 kg

Code	20440	73670
Colour	Yellow	White

How to retie the knot to the Life-Link

Put the line through both D-rings and hold steadily the short end. Make a loop with the long end and pass through it the short rope.

Then pass the same end under and around the long part and through the loop again

To fasten pull together from points A and B

How to repack the LifeLink MOB

To repack the line: Leave 50cm of line outside the bag. Hold with your right hand.

Measure another 50cm and fold the rope in two to create a "U" shape. Place the folded rope in the inside pocket of the bag.

a) Holding the line going to the Life-Link with the right hand, start gathering it creating a zig-zag. The width of the zig-zag should be approx. 20cm.
b) Continue in the same way, until enough line is collected in your hand.

Place this in the inside pocket gently. Repeat step 3 until all the line is gathered in the pocket in an orderly fashion.

Deploy M.O.B. system astern circle casualty until contact is made.

Confirm casualty is secured in M.O.B. before rescue is attempted.

Winch casualty slowly to the boat.

Haul casualty on board.

Rescue Systems

LifeLink MOB Danbuoy & Horseshoe, Grey

Mounting on the rails

2 horizontal rails

Intersection of 2 horizontal rails with a vertical one

- The MOB items are automatically inflated after release & coming into contact with water
- Saving valuable stowage space
- Easy-to-fit MOB
- Rapid deployment in case of emergency
- Material HDPE with UV protection

- All metal components are stainless steel
- Created via rotomolding
- Distance between horizontal rails: 300 – 310 mm
- Service required after each use or 3 years after the manufacturing date by an authorised LALIZAS service station

Code | 73669

Includes:

- An HDPE durable case
- High visible inflatable Danbuoy assembled with LALIZAS Lifejacket LED Flashing Light water-activated "Safelite IV" SOLAS/MED/USCG
- High visible inflatable Horseshoe with LALIZAS Whistle (70010)
- Drogue
- The stainless steel parts for its placement onto boat rails

Conforms to the ISAF Offshore Special Regulations

Made in EU

LALIZAS Encapsulated Lifebuoy Rescue Line, 30 m

Code | 72190

- 30 m lifeline in plastic tube, which fits in LALIZAS lifebuoys
- Material: UV resistant polyethylene
- Dimensions: L 480 x W 130 x H 80 mm
- Weight: 950 gr
- Rope: Ø 8 mm, length 30 m
- Lifeline Breaking Load: 500 kg
- Compliance with SOLAS requirements

Safety Ladders

Safety Ladder “Safe Up”, M.O.B, 5 steps

- A must-have MOB safety equipment for your boat
- Provides instant aid to an overboard crewmember in getting back on board
- The overboard crewmember only needs to grab & pull the handle in order to unfold instantly the fabric ladder and climb back on board safely
- It features 3 loops that can be fastened firmly on the rail of a boat and can be placed overboard
- When unfolded, it provides 5 steps with a steady foothold for the user to climb on board easily
- Lightweight
- Waterproof
- Made of durable fabric in order to withstand sunlight and harsh sea environment
- It can be repacked easily

- Dimensions when folded: Width 38 cm - Height 20 cm
- Dimensions when unfolded: Width 38 cm - Height 185 cm
- Case Fabric: 500D PVC & Polyester
- Webbing: Strong Polyester
- Weight limit: 507lbs (230kg)

Flushmount Safety Ladder

- It helps any crewmember get back easily on board without external help
- Suitable for frequent use (during your vacations) or in case of Man Over Board
- It consists of 3 polypropylene steps and 1 stainless steel handle assembled by a highly resistant line (bright yellow polyester of Ø 3mm)
- It is stored in a polyamide tube with a grey polypropylene cap, for optimum protection and waterproofness
- The Man Over Board removes the cap, pulls the ladder down and climb on board
- Lightweight
- Easily flushmounted (like a thru-hull fitting)
- Transom or skirt mount (sail and power boats), just above waterline

Code | 51558

Safety Harness & Jacklines

Vesttype Safety Harness, with D-ring

Code | 71152

Certified EN361

LifeLink Safety Jacklines, Set (2 pcs)

- Provides you safety while on board without hindering your freedom of movement to a great extent
- Made of 25mm durable, UV-resistant polyester strap
- Features two loops to attach it to the boat
- Available in white colour and five sizes from 6m to 10m

Code	20702	20703	20704	20705	20706
Length (m)	6	7	8	9	10

Sea Anchors - Drogues

Professional Sea Anchor (Drogue)

- Especially designed for use on large boats and under harsh conditions
- The fabric is 200D polyester coated on both sides with 0,45 mm PVC
- It is immensely strong using 40mm, UV-resistant webbing terminating on a 6 mm x 60 mm Inox connecting ring
- All drogues are supplied in a hardy and durable yellow safety stowage bag
- Available in different sizes

Sea Anchor (Drogue)

- Designed to reduce the speed of the ship, slow down the drift, stabilize the hull, reduce the swing frequency, and effectively reduce the water drift effect of the hull
- Suitable for power boats, sail boats, inflatable boat, jet skis, kayaks as sea brake or sea anchor
- Ideal for fishing
- PVC strong coated with continuous inside webbing for added strength and durability
- Easy to deploy and to retrieve, without tangling and spinning
- With portable and compact design, it dries quickly and stores compactly
- Weighted bottom and automatic opening
- Available in 5 sizes
- Packed with harness buoy

ATTENTION: This is a very general guide and there may be variations based on the weight & keel of the boat, or even on the intended use of the sea anchor etc. Your choice should not be based only on the guide.

Retroreflective Tape ORALITE, SOLAS & USCG, 40m Roll

Code | 70180

- High performance micro prismatic tape
- Permanently marked with ships wheel logo for immediate compliance identification
- Single layer construction for durability, abrasion resistance and flexibility
- No risk of water penetration
- Complies with SOLAS and the IMO LSA Code
- Tested in accordance with IMO Resolution A.658 (16) for Type I applications
- Approved by the US Coast Guard and Bureau Veritas
- Vinyl construction designed for inflatable devices and use in harsh maritime environments
- Length 40 m, width 50mm

Breathing Apparatus

Breathing Apparatus

LALIZAS Self Contained Breathing Apparatus / SCBA, SOLAS/MED

LALIZAS SOLAS/MED Self Contained Breathing Apparatus is a high-performance breathing apparatus, designed to offer maximum respiratory protection to the user during entrance or escape from a hazardous environment. This SOLAS/MED approved SCBA offers reliability and comfort and its key features are:

- Open circuit on demand positive pressure Self Contained Breathing Apparatus
- Anatomic carbon fibers composite material back frame with harness for perfect and easy donning
- Both back frame and harness are flame retardant, waterproof and antistatic
- With manometer and whistle (>90Db) warning the user that the air is dropping down below 50bar

It is available in two versions:

- With a 6L cylinder (steel)
- With a 9L cylinder (carbon composite)

The SCBA contains the following parts:

- Breathing apparatus carrier with harness
- Pressure regulator with manometer & whistle
- Pressure & air flow regulator
- Breathing apparatus facemask
- Compressed air cylinder with EU Standard Valve G5/8" thread

Packed in heavy-duty plastic carrying suitcase

LALIZAS Emergency Evacuation Breathing Device / EEBD "ESCAPE-15", SOLAS/MED

LALIZAS Emergency Escape Breathing Device (EEBD) ESCAPE-15 complies with the amended SOLAS ch.II-2 and the IMO MSC/Circ.849. All ships on international routes must carry EEBDs on board.

Accessories

Wall Bracket for EEBD

Code | 01623

Plastic Cover for EEBD

Code | 01622

Characteristics:

- Full-face hood universal size, suitable for every face shape
- 15 min. steady air-flow with sufficient air-delivery rate
- Flame resistant

- Activated with a single move
- Easy visual access on the pressure gauge
- Durable & reliable construction with low maintenance

- Silver colour to reflect heat and be highly visible
- Easy to refill cylinder (no adaptor required)
- Working temperature range: -10°C to 65°C

- Ozone resistant
- Non irritant neck seal
- Wide visor
- Non irritant
- Antimisting design for the visor

- Automatic activating valve - regulator
- Valve features G 5/8" F standard charging connector
- Pull valve safety lock

- Shock proof - antiblast pressure gauge
- Coloured so as to have easy readings for duration
- Over pressure - internal pressure of the cylinder

- Jacket & trousers
- Helmet (1 pc)
- Boots (1 pair)
- Gloves (1 pair)

All the above are provided in a Carrying Bag

Code	Size
74302	L
74303	XL

LALIZAS Antipiros Fireman's Jacket & Trousers, SOLAS/MED

Superior quality Nomex navy blue jacket & trousers made of four different layers for excellent fire protection & endurance. Nomex/ Kevlar material features higher protection from direct fire and exposure to a high temperature as it absorbs the heat.

- Widening straps and connecting hooks
- Front overlapping with touch and close fastening to the front collar
- Flame retardant and abrasion resistant reinforced patches on knees and elbows
- 3M reflective stripes on jacket and trousers
- Stand up collar
- Radio & flashlight pocket, jacket and trousers pockets
- Cuff with rib thumb hole
- DRD lifesaving drag belt
- Metal compartments for straps fastening

Specified Testing Standards:

EN 469, AC (XS2XR2Y2Z2) & EN ISO 13688

Code	Size
74298	L
74299	XL

LALIZAS Antipiros Fireman's Gloves, SOLAS/MED

- Four different layers for extra protection provide thermal, chemical, penetration and cut protection
- Ergonomic design facilitates firefighting works execution
- Reflective stripes for visibility

Specified Testing Standards: EN659 & A1

Code	Size
74301	L-XL

Fireman's Helmet, SOLAS/MED

Provides high level of protection, simple in use and extremely lightweight

- Interior padding easily replaceable and washable
- Integrated adjustment system (52–64 cm)
- "Push to release" button
- Anti-scratch and anti-fog coated external visor
- Reflective tape
- Neck protector (aluminised fibre)
- 3-point chinstrap
- Electrical insulation capacity E2
- Chemical resistance
- Extreme temperature resistance (up to 1,000°C in a 10 second flash over flames)
- Long-term temperature resistance (radiant heat test 14 kW/m²)
- High resistance to mechanical impacts
- Low-temperature classification –30°C

Code | 72249

Specified Testing Standards: EN 443 & EN14458

Fireman's Boots, SOLAS/MED

Recommended for structural fire fighting, general fire rescue & bush fire fighting. Made of Vulcanized Rubber (upper part and sole) and woven cotton canvas for extra comfort.

Sole/Heel

- Flame-retardant rubber outsole
- Fuel oil resistant
- Slip-resistant
- Excellent abrasion resistance
- Catered to enter high temperature
- Cold insulation
- Steel midsole

Upper construction

- Flame-retardant upper part with heat insulation
- Waterproof
- High visibility with black and yellow contrast
- Acids and alkalis resistant
- Metal toecap

Specified Testing Standards: EN 15090 & EN ISO 20345

Other Approvals: AS/NZS 4821 & CSA Z195-09 / ASTM F 2413-11

Code	Size
73667	43-44
74297	45-46

Fire Fighting Accessories

LALIZAS Fireman Axe with Long Wooden Handle

This long fireman's axe is the ideal tool for demolition work.

Code | 71685

It features:

- High carbon steel blade
- 12cm cutting edge
- Overall length: 90cm
- Weight: 2,3kg
- Pick spike for piercing and prying
- Wooden ash handle
- Rubber protective blade cover

LALIZAS Fireman Axe with Short Anti Slip Handle

This short fireman's axe provides heavy-duty chopping power to gain access to locked doors and hollow walls during an emergency.

Code | 71686

It features:

- High carbon steel blade
- 9cm cutting edge
- Overall length: 34cm
- Weight: 1,3kg
- Pick spike for piercing and prying
- Anti-slip handle
- Rubber protective blade cover

LALIZAS Holster for Fireman Axe

Synthetic leather cover for carrying a fireman axe safely on the belt.

Code | 74584

- No restriction on movements
- Made out of one piece of leather, which reduces seams
- Solid metal rivets placed to hold the holster together
- Metal snap for easy on/off action
- Fits perfectly LALIZAS Fireman Axe with Short Anti Slip Handle 1,2kg (code 71686)
- Can be attached to Fireman Belt, with Restraint Lanyard, M-XL (85-120cm), EN358, CE (code 74583) or Fireman Belt, Heavy Duty, with Safety Line L0,9m, CE (code 74582)

Lifeline, Fireproof with Hook, 5mmx30m, SOLAS/MED

Code | 72707

Fireman Belt, Heavy Duty, with Safety Line L0,9m

Serves as a means of restraint and is designed to complement equipment that provides protection against falls from heights while working. It is also a perfect match to fireproof hyperlink lifeline SOLAS/MED (code: 72707), helping to prevent detachment of breathing apparatus when the lifeline is in use and connected to it. Constructed from durable and resistant materials, the belt offers comfort to the user and can support weight up to 150 kg, including tools and equipment.

Code | 74582

- Polyester webbing
- Leather reinforcement on polyester strap
- Waistline circumference: 86-106 cm
- Size adjustment (from M to XL)
- Width: 85mm
- Belt regulating/connecting buckle
- Side attachment D-ring
- Detachable polyamide safety line (EN 354)
- Safety line leather sleeve protection
- Detachable connector with screwlink locking nut (EN 362)
- Carabiner hook (EN 362)
- Corrosion-resistant metallic components
- Weight: 860g
- Identification label

Fireman Belt with Restraint Lanyard

Enables the user to work while supported by personal fall protection equipment under tension, preventing the risk of free fall (work positioning belt). An integrated restraint lanyard at one end can be connected to an anchor point or to a structure, with the lanyard encircled, or directly, and thus supporting the user in tension.

A belt is suitable for a user, including tools and equipment, with weight up to 140kg.

Code | 74583

- Ergonomic polyester padding
- Waistline circumference: 85-120 cm
- Size adjustment (from M to XL)
- Automatic connecting buckle
- Lateral work positioning attachment D-rings (EN 358)
- Tool D-rings for hand tool weights up to 2 kg
- Integrated restraint lanyard
- Restraint lanyard connector (EN 362)
- Belt & lanyard can sustain a force 15kN
- Corrosion-resistant metallic components
- Identification label

Specified Testing Standards: EN 358

Fire Extinguishers

LALIZAS Fire Extinguishers

LALIZAS range of portable Fire Extinguishers, specially designed for the marine sector, provides additional protection from environmental induce, high fire protection effectiveness due to reinforced extinguishing ability and simplicity in application.

Other features:

- Large diameter of the safety pin ensures an easy grip even with work gloves
- Shock-proof pressure gauge facilitates accurate indication of pressure status
- Seamless cylinder production technology facilitates avoidance of weakening points, enhances tightness and pressure resistance
- Easy to use

Immersion Suits

Immersion Suits

LALIZAS Immersion Suit “Neptune”, Insulated, SOLAS/MED

- Exceeds the latest SOLAS specifications for hypothermia protection
- Ideal for use on board ferries, offshore drilling rigs, rescue boats, man-overboard boats and for general commercial use
- Protects you in situations where the danger of hypothermia is great, increasing your chances of survival
- Made of reinforced neoprene material (5mm thickness)
- Ergonomic design
- Thermally insulated
- Diesel, oil & flame resistant
- Successfully submitted to water ingress, jump & leak tests
- Easy & quick donning
- Should be worn in conjunction with an approved lifejacket

Features:

- A face seal and flap
- 3-finger gloves
- Front waterproof zipper ankle cuffs
- Neoprene pocket
- SOLAS Retroreflective Tapes (70180)

*With rubber gloves

Certified to HSE Compatibility Test protocol for Lifejackets and Immersion suits on offshore installations

Polar Survival Equipment

LALIZAS PSK (Personal Survival Kit)
LALIZAS GSK (Group Survival Kit) for 6 persons

Polar Survival Equipment

LALIZAS PSK (Personal Survival Kit)

LALIZAS Personal Survival Kit (PSK) is based on the sample content outlined in the Polar Code (IMO Resolution MSC.385(94)), PART I-B paragraph 9.1. It consists of equipment capable of performing in a polar environment. Additional equipment can be added upon request. The bag has two shoulder straps allowing the user to carry it securely on the wearer's back.

The equipment is delivered in a red heavy-duty, and watertight bag with waterproof zipper.

Code	Weight (kg)	Dimensions (cm)
72496	6.8 ±0,2	30 x 32 x 50

Packing details:

All items are packed into the RED Personal Survival Bag. The vacuum packed items are compressed into vacuum bags to save space. Once all items are packed within the carry bag, different ways of carriage are offered, such as lifting by hand or carrying on the back.

Polar Survival Equipment

LALIZAS GSK (Group Survival Kit) for 6 persons

LALIZAS Group Survival Kit (GSK) is based on content outlined in the Polar Code (IMO Resolution MSC.385(94), PART I-B paragraph 9.1.

The bag has 4 webbing handles on the top so it can be carried by more than 1 person. The bag has also a webbing loop and reinforced bottom area in order to be easily carried or pulled onto the ice surface. The spare (Personal Survival Kit) is included in the GSK bag, as indicated in the following table, but may be removed and carried separately as well.

The equipment is delivered in a red heavy-duty watertight bag with waterproof zipper.

If the ** goods (fuel, matches, purification tablets, hydroalcoholic gel) are desired to standard GSK code, then please kindly inform us upon order placement.

The pictures shown are for illustration purpose only. Specific content (colour, brand etc.) may vary.

Marine Distress Signals & Pyrotechnics

- 
- A photograph of a person in an orange life vest standing on an inflatable boat with an orange tarp. The person is holding a flare that is lit, with a large plume of white smoke rising into the sky. The boat is on a body of water. A red diagonal line cuts across the bottom right of the image.
- Day Signals & Reflectors
 - Sound Signals
 - Pyrotechnics

Day Signals & Reflectors

Signalling Mirror 7x7cm

Code | 56570

Instructions of use:

1. Hold the foresight in your left hand with arm fully extended
2. Hold the signalling mirror in right hand toward the sunlight, facing the back of the mirror
3. Align the holes of the foresight and the mirror on the target
4. Move the mirror until the reflection of the sun from the mirror can be seen on the foresight and a shadow point appears in its hole
5. The ray is now directed at the target

Signalling Mirror with Red Dot

One of the most reliable, effective signalling devices. It features an aiming spot to assist you in flashing in the intended direction. Ø 86 mm.

Code | 27177

Radar Reflector

It is made of light alloy. Provided with head plastic protection. Folding model for easy storage when not required. Packed in a plastic bag.

Code	Description	Dimensions (mm)
97638	Standard 12"	215x215x300
97639	R.O.R.C 16"	300x300x415
35000	R.O.R.C 18"	340x340x470

Radar Reflector, Tube Type

- Enhances your boat's signal on the area's radars
- Useful, not only on emergency cases but also on situations when visibility is low and other nearby vessels cannot see you
- Reflects energy from the radars and thus enhances the signal of the vessel
- Eyes on both sides allow the unit to be secured to the shroud
- Made of aluminium elements crossed at several 90° angles in a plastic casing, very high reflecting rate
- Lightweight and compact design
- Practical and noiseless

Code	Description	Length (cm)	Diameter Ø (cm)
72075	Sailboat	59	5
72076	Powerboat	57	

Day Signals

- Required on board by the International Regulation COLREG, as amended
- Mast head signals visually indicating the status of a vessel to other vessels on navigable waters during daylight hours
- Made of heavy-duty fabric with foldable inner framing with webbing, which is fully collapsible and offers quick and easy storage
- Both ball and diamond shapes are in black colour

Day Signal, Ball, Ø 600mm

Code | 72731

Day Signal, Diamond, 1200x600mm

Code | 72732

Day Signals & Reflectors

Black Ball (Anchor Signal)

- Internationally recognised daytime signal, used by boats when at anchor
- Made of highly resistant plastic
- Folds easily for storage

Code	Diameter (mm)
16185	300
39553	350

Black Cone

This signal must be displayed on sailing boats, when travelling under power.

Code	Dimensions (mm)
16206	350x340
39552	470x330

Sound Signals

Signal Horn 380 ml, Set

Acoustic range approximately 1500 m.

Fog Horn Head Only

Code | 10031

Refill Horn Canister, 380ml

Code | 10032

SignalHorn & Refilling Canister in Blister Pack

Code | 10033

Instructions

To install the horn, you need to screw it on the pressurised container

For operation, press down the horn

The signal horn must always be used in upright position

Do not store the pressurised container in direct sunlight. Do not expose to sunlight for very long hours or to temperatures exceeding 40 °C. Do not pierce or burn after use.

Signal Horn ECO 300 ml, Set

Refill Canister 300ml for Signal Horn ECO 72327

Code | 72903

- Non-flammable Gas
- 99,5% Lower GWP

Code | 72327

Install trumpet by clipping it to the top of the canister

To operate push down the button on the top of the horn

Signal horn must always be used in upright position

Do not pierce or burn, even after use

Sound Signals

LALIZAS Nautical Whistle

- Commercial grade, non-corrosive, pea-less marine whistle
- Accepted by USCG/SOLAS/MED/ISO for lifejackets and immersion suits
- Manufactured in accordance with SOLAS and USCG requirements

Mega Horn

Code | 10040

Whether you use Mega Horn in an emergency or for pleasure you certainly will be heard. Sound measures at 105 D.B. Available in red colour, it comes complete with counter merchandising display box.

- Floating, non-corrosive
- Friendly to the environment
- Available in showcases of 12pcs

Code | 90168

Megaphone with Siren

- Diameter: 200mm
- Length: 330mm
- Power: 20W
- Sound Coverage: 400m approx.
- Function: Talk/Siren (or Music)
- Batteries: 6x1,5V (size C)
- ABS Housing

Code | 16183

Fog Horn, Red

- Highly resistant polyamide
- Length: 30 cm
- Ø 8 cm

Pyrotechnics

LALIZAS Parachute Rocket, SOLAS/MED/USCG

Night and day distress signal for fishing boats, commercial vessels, recreational boats and liferafts. Suitable for marine use only.

- Visibility: 30 mg
- Ejection height: 300 mt
- Duration: 40 secs at 30.000 candelas

Code | 500422

LALIZAS Hand Flare, SOLAS/MED/USCG

Night or day distress signal. Should be used only in sight of a plane or vessel.

- Duration: 60 secs to 15.000 candelas

Code | 500424

LALIZAS Dry Bag for Distress Signals/Pyrotechnics

Code | 74636

- Dimensions: Ø16 x 48 cm
- Material: Transparent PVC

* Distress Signals not included

LALIZAS Buoyant Smoke Signal, SOLAS/MED/USCG

It emits orange smoke. Safe to use it on petrol or oil covered water. Highly recommended to use it during the day. Should be used only in sight of aircraft or vessel. Intended exclusively for marine use.

- Gross weight: 390 g
- Burning time: 3 minutes

Code | 500823

IMO Signs

An important and absolutely necessary part of the safety equipment, especially for commercial vessels, is signage. LALIZAS International Standard Signs can be used for indicating exits, directions, fire fighting and lifesaving equipment for the purpose of safe evacuation during emergencies and power failures. LALIZAS manufactures in-house all the International Standard Signs for indicating all of the above with the addition of custom-made signs, which meet all the present IMO specifications, using the highest quality material, in order to meet specific requirements.

LALIZAS Raincoat and Rainsuit

- Ideal for all water related activities
- Suitable also for water related working operations
- Concludes net fabric at the inner chest size of the coat at the top part so as not to 'stuck' onto the clothes or human fabric
- Made of 100% waterproof polyester with PVC backing
- The seams are internally welded with PVC material for extra durability
- It has outer pockets on rainsuit on top part and on raincoat
- The rainsuit trouser has elastic waistband

- Features zippers and buttons on, consisting of a foldable hood in collar and have storm cuffs on rainsuit on top part and on the raincoat
- Designed to be lightweight in order not to stress the user
- Even fish blood and grease stains can be easily removed
- Available in visible yellow colour, in 6 sizes
- Tested according to and found to be in compliance with the European Standards, EN 343 and EN ISO 13688 for protective clothing, offering the highest level of PPE rain protection.

MICRO LED

MICRO LED 12 Starboard & Port Lights 112,5°, Side & Flush mounted, Set

MICRO LED series includes the smallest but brightest navigation lights to indicate your position & keep you safe on the water. With elegant design and easy installation with just one hole, these lights provide the smallest possible "footprint" that a navigation light can leave on a boat. Their housing come in three different colours (white, black and chrome). There are two different options in terms of fastening (with screws or with silicone).

- Side & flush mounted
- Modern design
- Waterproof
- Non-corrosive
- Non-magnetic
- Easy installation

Characteristics:

Material: White ASA housing & shatterproof PC lens

Visible distance (Starboard – Port): 1 nm

Power consumption: 0,25 W, on 12/24 V

Code	74357	74359	74361
Mounting	without holes (with glue)		
Housing	White	Black	Chrome

Code	74358	74360	74362
Mounting	with holes (screws)		
Housing	White	Black	Chrome

Included:

Self-adhesive EVA flange & Wire length 150 mm & Screws*-DIN7982 ST2 9x13 (*for mounting with holes).

Installation:

MICRO LED Lights are a unique design within LALIZAS range of side & flush mounted navigation lights. They can be easily positioned into the boat's bow with just one hole. Depending on the product code, they can be fastened either with silicone or with screws, without leaving any sharp edges to spoil the boat's lines or cause injuries.

MICRO LED Pole Light

LALIZAS MICRO LED series includes the **smallest** but **brightest** navigation lights to indicate your position & **keep you safe** on the water. The Pole Lights of this series feature an **innovative** and **elegant design**, and may be used on boats up to 12 m as a white all-round stern light. There are various available options to meet all possible requirements, even by the most demanding boaters. The housing comes in two **different colours** (black, grey) and the base comes as a **folding** or **plug in** one, based on the product code. Also available in two **different lengths**.

Material: Anodised aluminium pole with polycarbonate lens and a glass reinforced nylon base

Pole diameter: 19 mm

Visible distance: 1 nm

Power consumption: 0,25 W, on 12/24 V

Installation: Should be screwed in such a position in order to be higher than the sidelights (according to COLREG 72)

Code	74364	74363	74366	74365	74382	74381	74384	74383
Base	Folding		Plug in		Folding		Plug in	
Length (cm)	25	60	25	60	25	60	25	60

LED Navigation Lights

FOS LED series of navigation lights is designed to save power consumption on board and offers reliability, efficiency and optimal visibility at sea. This series of LED navigation lights is suitable for boats up to 20m (depending on the product code) for enhanced safety. LED technology provides supreme efficiency with up to 80% less power consumption compared to conventional bulbs. Their completely sealed unit ensures durability and safety.

The series meets the requirements for:

- COLREG 72 • MSC 253(83) • IEC 60945 • EN 14744
- ABYC A-16 • IP67 • USCG Approval

CLASSIC LED

For boats up to 12m

Classic LED series of navigation lights are designed for boats up to 20m (depending on the product code). Made of tough UV stabilized ABS polycarbonate compound with shatter-proof acrylic lens, stainless steel electrical contacts and nitrile water resistant seal to provide reliable long-life. All CLASSIC LED are supplied with encapsulated in silicon 12/24V LED bulb to ensure maximum energy saving, protection against humidity and a long lifetime of 50.000 hours.

The series meets the requirements for:
• COLREG 72 • MSC 253(83) • EN 14744

Standard Navigation Lights

EMERGENCY Navigation Lights

EMERGENCY waterproof navigation lights are ideal for use on small crafts, inflatable boats, kayaks, or as emergency lighting in larger boats. All portable emergency lights can be used when conventional lights are not suitable for the vessel or when they are not operating. They are available with external light reflectors. Standard alkaline batteries (D cell) are needed (not included), giving approx. 9 hours of continuous use.

FAROS 7

FAROS 7 series of navigation lights includes masthead, starboard, port and stern lights, ideal for powerboats up to 7m. They lights are waterproof, non-corrosive and non-magnetic. They are mounted on the surfaces with wall plugs. Navigation lights with wall plug have the advantage that they are much easier to mount and you only need to open one hole. This range is provided with a two sided adhesive tape and flange, which by sticking it on the surface you know exactly where to open the hole and the flange is already in the correct place.

JUNIOR 7 All-round Lights

These all-round pedestal lights are designed for sailboats up to 7m. These lights are much smaller in size without compromising in elegant design and efficient operating function. The pedestal fitting gives a firm attachment to the boat. Durability and longevity are ensured through the high quality manufacturing standards of LALIZAS.

Visible distance: 2nm. Bulb (included): 12V/5W.

JUNIOR 7 Starboard & Port - Stern - Masthead Lights

JUNIOR 7 series of navigation lights is designed for boats up to 7m length. The lights are waterproof, non-corrosive and non-magnetic. They are very easy to mount and their small size makes them very discreet but without compromising their effectiveness. This range is provided with a two sided adhesive tape and flange, which by sticking it on the surface you know exactly where to open the hole and the flange is already in the correct place.

MATI 7 Starboard & Port - Stern Lights

MATI 7 series of navigation lights are designed for powerboats up to 7m length. The lights are waterproof, non-corrosive and non-magnetic. Their special design enables them to be neatly mounted on the boat with safety and without compromising on appearance. They are fitted into the boat's bow, without leaving any sharp edges to either spoil the boat's lines or cause any injuries. They are provided with a two-sided adhesive tape and flange, which by sticking it on the surface you know exactly where to open the hole and the flange is already in the correct place.

POWER 7 Starboard & Port - Bi-colour- Stern - Masthead - Fixed Spreader Lights

POWER 7 series of power boat navigation lights is compact and streamlined to follow comfortably the fit of most boats. The lights are fixed through the base with two or more screws, and the housing is clipped on. Their round shape is less likely to snag with other fittings or ropes.

Standard Navigation Lights

For boats up to 12m

Pole Light

According to the COLREG 72, all pole lights should be placed higher than the sidelights. Thus, it is easier for other boats to calculate their position in relation to your position and direction. Furthermore, a light positioned lower maybe obscured by other objects or people. LALIZAS range of Pole Lights includes telescopic, folding and plug in options, thus meeting all requirements. This type of pole lights may be used on sailing boats less than 20m (tri-colour) or on powerboats less than 12m (white), instead of small all-round lights.

- **Material:** Made of marine grade stainless steel 304 tubing with ABS plastic, polycarbonate lens and nitrite O ring sealed light and a fibre nylon mix base
- **Housing:** Available in black and white

- **Installation:** Pole lights are positioned in such a way that they are higher than the sidelights and may be screwed into position. Depending on the model, you can adjust the height of the light. Five lengths of LALIZAS Pole Lights are available in five different lengths which vary between 23cm and 130cm.

- **Visible distance:** 2nm
- **Bulb (included):** 12V / 10W

LALIZAS B2B

LALIZAS B2B is an online platform (www.lalizasb2b.com) which exclusively addresses professional associates, providing them with useful information on both their needs as well as our products and services.

It has been specially designed in-house in order to facilitate in the best possible way the communication between us and our partners.

www.lalizasb2b.com

Through LALIZAS B2B platform, you are able to:

1. Place orders online

There are 3 ways to place an order:

- Quick Order, by directly typing the product codes you need
- Through .CSV file, by uploading a file with the item codes and quantities, if you wish to place a large order
- Regular Order, by browsing the categories and selecting the products you want

2. Have 24/7 real-time availability and prices for all our products

All information on prices and product availability are being updated every one hour. This ensures that you always have the most up-to-date information about our products.

3. Have access to all the documentation of your transactions

- Invoice
- Packing List
- Dispatch Document

After you have placed an order, all relevant documentation is posted on the B2B platform, so you can easily download it on your computer.

4. Keep track of your order

- Approved: your order is approved and transferred in SAP
- Picking: your order is in the picking process
- Backorder: these are all the product codes that are not available and are pending

The B2B platform is connected to the ERP system of LALIZAS, called SAP. This means that you can be informed immediately of the status of your order and the date of dispatch.

5. Be informed about the product availability dates

For products that are not available at the time you place an order and the products you have ordered and are pending, the B2B platform informs you about the date when the goods will be available.

6. Have immediate access to the statistical data of your account

You can be informed about:

- The balance of your account
- All your orders, grouped by item code or order

LALIZAS gives you the convenience of having total control of your orders in your own time, leading to increased operational efficiency due to accurate information provided.
